

Student Poster Award

of

The 3rd International Symposium
on Interdisciplinary Materials Science (ISIMS-2011)

P-19 Satoshi Ichinohe

**“Design of Core-Shell Type Nanogel
-Effect of PEG Chain Density and Length on Blood Circulation-”**

P-29 Takuya Yamagata

**“Synthesis and electrochemical properties of diketopyrrolopyrrole
derivatives having high electron accepting property”**

P-32 Ryota Sato

**“Designed Synthesis of Monodisperse Pd/Pt Core/Shell Nanoparticles
and Their CO Adsorption Properties”**

P-41 Taizo Yoshinaga

**“Visible-Light-Driven Photocatalytic Overall Water Splitting
Promoted by Two Different Cocatalysts”**

P-45 Kentaro Kudo

**“Estimation of Albumin Binding Site and Cell Polarity Using
Quinoxaline-Pyrrole Based Fluorescent Probe”**

P-71 Hikari Tomori

**“Fabrication of ballisticgraphenenJosephson junction and its
transport measurement”**
