

The 56th MANA Special Seminar

15:30-16:15

Prof. Matthew R. Linford

Brigham Young University

Functionalization of Hydrogen/Deuterium-Terminated and Oxidized Diamond, and Layer-by-Layer Growth of Polymer/Nanodiamond Multilayers as Applied to Separation Science

16:15-17:00

Prof. Robert C. Davis

Brigham Young University

Carbon Nanotube Infiltration: a Versatile Approach for Fabricating High Aspect Ratio Microstructures Using Carbon Nanotube Frameworks

Venue: Seminar Room #431, MANA Bldg., Namiki

Date: Jan 29th Thursday Time: 15:30-17:00

Contact: International Center for Materials Nanoarchitectonics (MANA), Nakata (ex. 8806)
