
International Symposium on Atomic Technology for Biomaterials Science (ISATBMS-2008)

June, 5 2008, Tsukuba

14:00-14:40

*Satoshi Hamaguchi, Osaka University,
"Plasma Technique in Bio-related
Science"*

14:40-15:20

*Hirofumi Matsui, University of
Tsukuba, "Porphyrin as a Targeting
Ligands"*

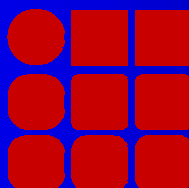

15:30-16:30

*Allan S. Hoffman, University of
Washington, "The Origins and
Evolution of Controlled Drug Delivery
Systems (DDS) over the Past 40-50
Years"*

16:30-17:10

*Aki Hirayama, Tsukuba University of
Technology, "in vivo Imaging and
Therapy for Oxidative Stress"*

17:30-20:00 Party and Poster presentation
(Lab.Adv.Res.B112)

TIMS LIFE SUEVEYOR

Date June 5, 2008
Site, Room 3L206, University of Tsukuba
Organizer, Tsukuba Research Center for Interdisciplinary Materials
Science (TIMS), University of Tsukuba
Co-organizer, General Management Group, Grant-in-Aid for Scientific
Research on Priority Areas "Lifesurveyor", MEXT
Co-organizer, International Center for Materials Nanoarchitectonics, WPI
Research Center Initiative, MEXT
